

Teamstudio Edition 29 Release Notes

Introduction

We are pleased to release Teamstudio Edition 29 that supports Notes® 8.5.3.

teamstudio analyzer

Enhancements

- SPEK-5BWGC8** You can now run the audit on an existing analysis database without also running the analysis. See the DEANalyzeAndAudit function in the [Teamstudio API Reference](#) for details.
- JKIY-82AL5D** Analyzer now displays dependencies of XPages and custom controls on the Design Notes page.
- GNON-7ZGL94** You can now resize the **Open Database** window.

teamstudio CIAO!

Enhancements

- SPEK-7CWF99** You can now see issue tracking details in the CIAO! History and the CIAO! main windows.
- SPEK-7CWEVC** The Check-out window and the Delete window now include the issue number for applications associated with an issue-tracking database.
- DHOR-7C9RG4** The CIAO! Change report now includes the issue number associated with the Issue Tracking database.
- LBAR-7SPW4Z** You can now view check-out times in the CIAO! Check-Out Report.
- SPEK-7YLKRC** When you delete an element that is not checked out, you now can enter the related issue from the **Enter Reason for Deletion** window.
- AMAN-888J8S** When checking out from Designer and entering a comment, you can now select the **OK** button using the keyboard.
- TTRN-86QSN9** Removed unused **Locked** fields from the CIAO! Check-Out Report.

teamstudio configurator

Enhancements

- MSHA-7H9W5Y** Configurator now remembers 6 previous search and replace strings.

teamstudio delta Enhancements

SPEK-7AXCZP Delta now displays text instead of a letter to represent the **\$Flags** information.

GNON-7ZGL94 You can now resize the **Open Database** window.

teamstudio design manager Enhancements

MFYN-7QALR4 Design Manager now shows, in the left pane, which server a library is on.

MWEE-7WFJ9L Corrected a label of a right-click menu option in the **Edit Group Object** window, changing it from **Select Dependencies** to **Identify Dependencies**.

GNON-7ZGL94 You can now resize the **Open Database** window.

teamstudio validator Enhancements

SPEK-8BYGRF Added a Validator option to ignore Keyword fields.
